Our Mission & Leadership

Our Mission

To be the most reliable, precise, and responsive vector conversion and image editing partner for businesses worldwide — delivering production-ready files that work the first time, every time, at prices that make outsourcing the obvious choice over in-house production.

Leadership

Sujan Bhuiyan — CEO & Founder

Founded VectorWiz in 2014, leads Gigaverse Holdings, overseeing strategy, client relationships, and AI-powered workflow innovation. Grew from solo freelance to 19-person production studio.

Business unit of Gigaverse

How We Work

Our 7-Step Process

Every project follows this structured workflow to ensure quality, transparency, and on-time delivery.

Quality Assurance & File Formats

Quality Assurance

- Dual-review: production designer + QA designer at 100% and 200% zoom
- Path accuracy, color matching, edge quality, format integrity checks
- Batch orders: style parameters set at start, consistency verified across every file
- Satisfaction guaranteed — rework at no additional cost

File Formats

Vector

AI, EPS, SVG, PDF, DXF

Raster

PSD (layered), TIFF, PNG, JPG

Color Profiles

Pantone, CMYK, RGB, HEX

Every order includes editable source file with organized, named layers.
